All articles published in the *Future Healthcare Journal* authored by Jeannie Watkins<sup>1-5</sup> should have stated as a declaration of interest that she is a director of the recruitment organisation PAs Transforming Healthcare (PATH) with a 10% share holding. For the period spanning the authorship of the articles and since, she has received no payments from the company. We apologise for this oversight and thank Jeannie Watkins for bringing this to our attention. The articles are being retrospectively updated to include this conflict-of-interest statement.
